JELLA KESAVA KRISHNA PAVAN

Kovvur, Andhra Pradesh | 9949900254 | kesavajella2006@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Java Full Stack Developer with hands-on internship experience building and deploying full-stack web applications using Spring Boot, React.js, and MySQL. Skilled in designing REST APIs, integrating the Google Gemini API, and deploying services on cloud platforms (Docker, Firebase, GCP). Strong DSA foundation, with 1,900+ problems solved across LeetCode, GeeksforGeeks, and CodeChef.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C, HTML5, CSS3

Frameworks & Libraries: Spring Boot, React.js, Bootstrap, Hibernate/JPA

Databases & Cloud: MySQL, SQLite, Firebase, Google Cloud Platform (GCP)

AI Integration: Google Gemini API (structured data generation)

Tools & Practices: Git, GitHub, Docker, Postman, REST APIs, DSA, OOP, DBMS

EXPERIENCE

Full Stack Web Development Intern — *TeCodex IT Solutions, Vijayawada* May 2026 – Jul 2026

- Developed and deployed a responsive full-stack AI Trip Planner application, cutting initial page load times by 35%.
- Implemented Firebase Authentication and a TiDB Cloud (MySQL-compatible) database to support 1,000+ user accounts; integrated the Google Gemini API to reduce request failure rates.

Android App Development Intern — *Plasmid Innovation Pvt Ltd (Virtual)* May 2025 – Jul 2025

- Developed a dual-module (User/Admin) Android application streamlining registration, scheduling, and multi-dose tracking for 3 vaccine types.
- Implemented role-based access control and a local SQLite database, reducing retrieval latency by 35% and enabling full offline functionality.

PROJECTS

Restora – Smart Canteen System | *Java, Spring Boot, MySQL, REST APIs, Docker, Render* Live Demo

- Engineered a 3-tier user management system (Super Admin, Canteen Admin, User) with role-based access and authentication, segregating data across 4 sub-canteens.
- Desveloped the cart/order workflow and REST APIs, synchronizing live shopping-cart state between frontend and backend without full-page reloads.

IntelliTrip – AI Trip Planner | *Java, Spring Boot, MySQL, Google Gemini API, Firebase, TiDB Cloud, Hibernate/JPA* Live Demo

- Built a Java/Spring Boot backend generating multi-day travel itineraries from 6 user preferences, integrating the Gemini API to produce structured itinerary data consumed by the backend.
- Structured a responsive dashboard (HTML/CSS/JS) displaying day-by-day plans and cost breakdowns via RESTful APIs.

Covid Dose – Covid Vaccination App | *XML, Java (Android)* Live Demo

- Created an independent Android vaccine-scheduling app to track healthcare capacity across 5 major medical centre zones.
- implemented a local relational schema across 6 interconnected tables to maintain data integrity during network disconnects.

EDUCATION

B. Tech in Information Technology — *Aditya Engineering College* Jul 2023 – May 2027 (Expected)

CGPA: 8.80

CERTIFICATIONS

- NPTEL – Java, IOT 4.0
- Infosys Springboard – Full Stack Development, OS, DBMS, CN
- Scaler – Spring Boot
- HackerRank – SQL(Basic), SQL (Intermediate), Java(Basic)
- GeeksforGeeks – Data Analytics, DSA
- APSSDC – Android App Development (Workshop)

ACHIEVEMENTS

Competitive Programming

- Solved 300+ problems on LeetCode, 600+ on GeeksforGeeks, and 1,000+ on CodeChef (3★)
- 5★ badges in C, Python, Java, SQL, and DSA on HackerRank
- Codeforces: Max rating 620
